

Bibliography of the Works of Professor Edward A. Friedman

Refereed Journal Articles

Review of Benjamin E. Schwartz's *Right of Boom: The Aftermath of Nuclear Terrorism* (Overlook Press, 2015), *Federation of American Scientists Public Interest Reports* (online), Summer/Fall 2015, Volume 68, No 3/4.

A Scenario for Jihadist Nuclear Revenge, *Federation of American Scientists Public Interest Reports* (online), Spring 2014, Volume 67, No 2.

Computer-Assisted Medical Diagnosis for Rural Sub-Saharan Africa, *IEEE Technology and Society Magazine*, Fall 2009, pp. 18–27.

A Comprehensive Strategy for Internet-in-Education Teacher Professional Development (online), October–December 2002, TechKnowLogia (www.techknowlogia.org).

Evaluation of a Mentor Teacher Model for Enhancing Mathematics Instructions through the Use of Computers, *Journal of Research on Computing in Education*, Spring 2000, Volume 32, No 3, pp. 336–350 (with Patricia J. Holahan and M. Peter Jurkat).

Digital Library Support for Scholarly Research, *Information Processing & Management*, July 1999, 35 (3), 281–291 (with Robert R. Downs).

Enlivening Science Education with Data from the Internet, *Journal of Materials Education*, Volume 20, No 1/2, December, 1998.

Organizing University – Secondary School Interaction for Effective Teacher Inservice Training in Computer Use for Mathematics Instruction, *Journal of Computing in Teacher Education*, Summer 1991 (with M. Peter Jurkat, Roger S. Pinkham, Ihor Charischak and Lori V. Morris).

Information Technology and Liberal Learning, 1983–1987, *CONNECTIONS*, Consortium for the Advancement of Private Higher Education, Volume 1, No 3, Spring 1987, pp. 4–5.

Introduction as well as Guest Editor for special issue on Information Technology Case Studies of Effective Applications, *Engineering Education*, Volume 77, No 3, December 1986, pp. 143–145.

Computers in Education at Stevens Institute of Technology, *SIGUE Outlook*, Association for Computing Machinery, Volume 19, No 1/2, 1986, pp. 49–53.

The Wired University, *IEEE Spectrum*, November 1984, pp. 115–120.

Machine-Mediated Instruction for Workforce Training and Education, *Information Society Journal*, Volume 2, No 3/4, 1984, pp. 269–320.

Stevens Personal Computer Plan, *EDUCOM Bulletin*, Fall/Winter 1983, No 3/4, pp. 12–15 (with J. J. Moeller, Jr.).

Technology as an Academic Discipline, *Annals Issue of Engineering Education*, Volume VI, December 1980, pp. 211–216.

Dimensions of Technological Literacy in Liberal Education, *The Forum for Liberal Education*, Volume III, No 3, December 1980, pp. 1–3. Also, Guest Editor for this issue devoted to Technological Literacy and the Liberal Arts.

Brillouin Scattering and Molecular Relaxation in Polymethyl Acrylate, published in the *Proceedings of the Second International Conference on Light Scattering in Solids*, Ed. by M. Balkanski, Flammarion Science, Paris, 1971, pp. 468–493 (with Y. Y. Huang, R. D. Andrews, and T. R. Hart).

Brillouin Scattering Near the Glass Transition of Polymethyl Methacrylate, *Journal of Applied Physics*, Volume 40 (1969), pp. 4245–4247 (with R. D. Andrews and J. Ritger).

Application of the Inverted-Filter Technique to the Study of Inelastic Neutron Scattering by Paramagnetic Substances, *Physical Review*, Volume 147 (1966), pp. 457–462 (with A. N. Goland).

Hyperfine Fields and Magnetic Ordering in Fe_3Al , *Journal of Applied Physics*, Volume 34 (1963), pp. 1048–1079 (with W. J. Nicholson).

Refereed Conference Proceedings

Can Ubiquitous Broadband Internet Access Help Alleviate Poverty? Academy of Management Business and Development Conference, Cleveland, Ohio, October 22–25, 2006 (with William Guth).

Applying a Technology Management Perspective to Global Development. Academy of Management Business and Development Conference, Cleveland, Ohio, October 22–25, 2006 (with Michael R. Ryan).

Technology Management for Global Development – A Conceptual Framework. Academy of Management Business and Development Conference, Cleveland, Ohio, October 22–25, 2006 (with Edward A. Stohr).

Revitalizing Secondary Mathematics Instruction Through the Utilization of Computers: A Collaborative Approach. Proceedings of the National Educational Computing Conference, June 16–20, 1991 (with M. Peter Jurkat, Roger S. Pinkham, Ihor Charischak and Lori V. Morris).

Implementation of Computer Use in Mathematics Instruction. Fourth International Conference on Children in the Information Age, Impact of Information Technology in Education on Children, Albena Resort, Bulgaria, May 21–24, 1991 (with M. Peter Jurkat, Roger S. Pinkham, Ihor Charischak and Lori V. Morris).

Toward a Model Program of University – Secondary School Interaction, Enhanced Mathematics Instruction Through Computer Integration: The First Two Years. Proceedings of the ADCIS 32nd International Conference, 1990, p. 146 (with M. Peter Jurkat, Roger S. Pinkham and Lori V. Morris).

Computer Integration in U.S. Secondary School Mathematics. Seventh International Conference on Technology and Education, Brussels, Belgium March 1990. Proceedings of the Conference, Volume I, pp. 314–316 (with M. Peter Jurkat and Roger S. Pinkham).

Computer Integration in Secondary School Mathematics. SALT Interactive Instruction Delivery Conference, Orlando, Florida, February 1990, Proceedings of the Conference, pp. 29–31 (with M. Peter Jurkat and Roger S. Pinkham).

Technology and Humanism – Are They Compatible? Proceedings of the National Conference on Technology and Education, Institute for Educational Leadership, Washington, D.C., January 1981, pp. 275–289.

Comprehensive Utilization of Computers in Undergraduate Engineering Education, presented at Frontiers in Education Conference, Dallas, Texas, October 20, 1980, published in F.I.E. Proceedings, pp. 476–483 (with M. P. Jurkat and J. J. Moeller, Jr.).

Technology in Higher Education, presented at Frontiers in Education Conference, Niagara Falls, Canada, October 15, 1979, published in F.I.E. Proceedings, pp. 31–38.

Book Chapters

Introducing Undergraduate Students to Automated Text Retrieval in Humanities Courses. Humanities and the Computer, New Directions. Published as part of a collection on computing in the humanities by the Oxford University Press, pp. 103–112, 1990. Further research on this topic presented at 1989 AERA Conference (with J. E. McClellan and A. Shapiro).

Technological Literacy as Means and Ends, in: The Redesign of Testing for the 21st Century, Princeton, NJ: Educational Testing Service, 1986, pp. 81–86.

Invited Articles/Reviews

Searching the Web for K-12 Science, Book Review for “Network Science, A Decade Later: The Internet and Classroom Learning”, May 2002. Contemporary Psychology APA Review of Books, Volume 47, No 2, Lawrence Erlbaum Associates, NJ.

Book Review: Technology and Culture, *The International Quarterly of the Society for the History of Technology*, Volume 39, No 4, October 1998.

Technology and Higher Education in America in the Next Decade, invited paper at the Annual Meeting of the Association of American Colleges, February 1979, *Liberal Education*, Summer, 1979, Volume 65, pp. 198–220.

Research Reports

Computing Intensive Environment at Stevens, Monograph published by EDUCOM, 1987.

Published Teaching Cases

Technologies for Text (Curriculum Module), distributed by Council of Independent Colleges under grant from the Exxon Education Foundation, 1986.

Other publications

Engineers Need More than Token Humanities Courses, *Engineering Times*, December 1983, p. 4.

Stevens Personal Computer Plan, *EDUCOM Bulletin*, No 3/4, Fall/Winter 1983, pp. 12–15 (with J. J. Moeller, Jr.).

Scenario for a Jihadist Nuclear Revenge, *Public Interest Reports of the Federation of American Scientists* (posted on Jun. 05, 2014), <http://fas.org/pir-pubs/scenario-jihadist-nuclear-revenge/> (with Roger K. Lewis).

Review of Benjamin E. Schwartz's *Right of Boom: The Aftermath of Nuclear Terrorism* (Overlook Press, 2015), *Public Interest Reports of the Federation of American Scientists* (posted on Oct. 14, 2015), <https://fas.org/pir-pubs/right-of-boom/>.

Presentation at a Panel Discussion

“Chernobyl’s Dysfunctional Decisions”. *30 Years After the Accident: The Meaning of Chernobyl Today?* (April 26, 2016), https://fas.org/wp-content/uploads/2016/05/Presentation_EFriedman.pdf.
